

DO YOU NEED A MUSIC COPYRIGHT LICENSE?

Do you...

Reprint melody lines and/or text from a song in a worship aid?

Project lyrics onto a screen?

Upload or stream a video of your worship online?

Share devotionals containing worship music?

Create practice tracks for your choir?

YOU NEED A LICENSE

Using copyrighted material without the appropriate license can carry debilitating fines and legal ramifications too cumbersome for most institutions to manage on their own. Having a license with ONE LICENSE and reporting your usage ensures that your organization is protected from copyright infringement.

ONE LICENSE aims to make the process of securing copyright permissions significantly easier by providing one source for your copyright needs. A license with ONE LICENSE grants you access to our catalog of 80,000+ songs from over 300 different Member Publishers and their catalogs. Reporting ensures that the artists receive their justly owed royalties for your use of their works.
